SUMMARY

A second year students studying Electronics and Computer Engineering looking for an industrial attachment for experience, an opportunity to grow my passion in the engineering field as well as be able to contribute to the industry with the knowledge I have acquired.

EXPERIENCE

Programming

January-February 2025

I was able to learn HTML, CSS and JavaScript from YouTube and Google Developer Club in my University. From the tech skills I learnt, I was able to create a HTML website and put it online. We also learnt introduction to C in our school coursework

School work

September 2023-May 2025

I have been able to work with some of the electrical machines in our lab and collect data which helped to be able to write reports.
